

# TA Advanced Practitioner Award

## Work-based learning, evidence-based qualifications

Through TA Tribe, and in conjunction with the International Centre for Transactional Analysis Qualifications (ICTAQ), Lynda Tongue (TSTA-org) is pleased to offer the Advanced TA Practitioner Award.

Online training and supervision for those practitioners who have completed the Certificate programme, and who wish to continue to add a TA dimension to their work with clients.

The Certificate and Diploma programmes stand-alone as methods to gain more TA knowledge or they can contribute to your progress towards further qualifications such as a MSc in Transactional Analysis or the EATA and ITAA status of Certified Transactional Analyst.

The process of writing and developing your portfolios, in close contact with your supervisor enhances your learning and enables a deeper grasp of the theory and its application. You will be supported to work with your clients, whilst working towards a qualification!

### TA Tribe pathway to qualification:

- **TA Tribe Advanced Practitioners (TAPs) group** - online workshops offering a blend of theory, discussion and group supervision
- **Online Supervision:** one to one and in small supervision sets
- **Portfolio approach:** choose a portfolio based on your current work projects. Work with your supervisor to apply TA theory in practice.

### Diploma requirements:

- Successful completion of the Certificate programme
- Training hours: 75
- Supervision hours: 20
- Portfolios: four (two core, and two of your choice)
- Application hours – 150
- Presentation board – 1

A comprehensive Student Handbook is available for download  
ICTAQ website [www.ictaq.org](http://www.ictaq.org)
